# Ask Aeries! Traditional Scheduling 

May 4, 2023
Host: Flaviola Cisneros
Presenter: Heidi Hayes
Moderators: Ana Solis \& Loretta Bishop

## Ask Aeries

Is there a better way to mass schedule elementary students into classes besides creating a giant section for each grade and
then going through the list to move them to smaller sections?

## Ask Aeries

You can Schedule the
Students with course requests and let the Scheduler add the students to sections.

| Schedule All Students |  |  |
| :---: | :---: | :---: |
| Scheduling Options |  |  |
| Grade Sequence: gnore Grade Level Schedule Low to High Schedule High to Low | Student Sequence: Alphabetically Reverse Alpha Randomly | Schedule Alternates Ignore Class Maximums Include Inactive Students Prevent Gaps in Schedule Ignore Group Codes |
| A Scheduling Using Next Year's Grade Levels |  | Balance Academic Weight <br> 10 Max Time Per Student |

## How do we mass add courses for incoming students? Several Ways <br> 

Course Request Packets: https://support.aeries.com/support/solutions/articles/14000071500-add-course-request-packets-to-course-requests-schedule

Mass Add Course Requests: https://support.aeries.com/support/solutions/articles/14000069826-student-course-requests
Import Course Request from Academic Plan:
https://support.aeries.com/support/solutions/articles/14000071839-academic-plan\#Importing-Course-Requests\�\�\�\�\�

What is the best way to manage the master schedule when classes are inactivated?

- If there have been students in the section even one day, leave alone.
- If there have been no students in [ $\Delta$ ] the section, you may delete it. AskAeries

## What is the simplest way to balance classes?

## Reports \& Query

- Scheduling Class Load Analysis
- Scheduling Conflict Matrix
- Scheduling Course Request Analysis

These are just a few of the reports that can be used to balance classes.

Aeries makes every attempt to balance the numbers, but it can only do so much with what it is given.

You can also use query to analyze your schedules.

## Ask Aeries

## What is a normal timeline for completing scheduling?

https://support.aeries.com/support/solutions/articles/14000133635-master-schedule-timeline
$\boxed{\Delta}$

## After uploading schedules how can I check if

 students are missing a period on their schedule?
## Report:

## Students With Incomplete Class Schedules

Print Students With Incomplete Class Schedules Report Options

## How can I check for students placed in duplicate classes?

## Report:

Students With Duplicate Course Requests Students With Double Periods

| Print Students With Duplicate Course Requests |
| :--- |
| Report Options |
| Report Format: PDF |
| Report Delivery: None |
| O |
| By Student Name |
| $\square$ | | By Course Name |
| :--- |

Print Students With Double Periods Report Options

Ask Aeries

What are the maintenance tasks that should be performed in Traditional Scheduling? Start of school, semester change and throughout the year.

1. Getting Schedules to Students and Initializing ATT
2. If you set up your schedules with changes at the Terms, there is nothing to do at Semester Change
3. Throughout the year are adding schedules for new students, moving classes, managing the MST
4. Then New Year Scheduling Setup: course requests, SMS, scheduling the students into Sections.

What is the easiest way to create a rotating schedule? As in the 1st period of the day on Monday is the last period is not the 1st period on Tuesday, all core subjects (5) rotate throughout the week as far as what is offered first.

## Use Flex Scheduling

This will be the Next Ask Aeries
