Supplemental Attendance Session Objectives

Upon completion of this Aeries conference session, attendees should be familiar with:

- ✓ Configuration and setup necessary for using Supplemental Attendance Sessions
- ✓ Defining district-owned Supplemental Attendance Programs
- ✓ Configuring site-owned Supplemental Attendance Sessions, including calendar, staff and students
- ✓ Enrolling students in Supplemental Attendance Sessions
- ✓ Including Supplemental Attendance in Grade Reporting/Report Cards
- ✓ Integrating Supplemental Attendance with Student Attendance (ATT)
- ✓ Teacher and staff methods for tracking attendance in Supplemental Attendance Sessions
- ✓ Accessing and running various reports associated with Supplemental Attendance Sessions

Supplemental Attendance Session Overview

Supplemental Attendance enables schools to track positive attendance programs in a negative attendance school. Below are some of the benefits to using **Supplemental Attendance** in Aeries®.

- ✓ Sessions can be created in any type of Aeries® school – High School, Elementary, Middle Schools and Continuation schools with positive attendance.
- ✓ The session calendars are not tied to the school calendars. Saturday school and every day tutoring sessions can be created.
- ✓ Attendance can be submitted in the Teacher Portal.
- ✓ Attendance can be scanned in using bar code scanners in Aeries or the Teacher Portal.
- ✓ Grade reporting is available for sessions. Teachers can give grades to students in their sessions. The grades will print on the secondary report cards.
- ✓ Students can be enrolled in multiple sessions at one time.
- ✓ Student's classroom attendance is separate from the Supplemental Attendance session attendance.

Supplemental Attendance Security

Teacher permissions assigned through teacher portal group

- ✓ If “Allow Walk-Ins” option is set up, teachers need **Insert** permissions on ATA
- ✓ To take attendance give **R, I, U** to ATD
- ✓ To access and run class roster report **Read Only** to all tables in supplemental attendance. (Not take attendance)

Supplemental Attendance

Clerical/Admin access should be set up by groups

- Read Only Group
- Clerical Group

For the Clerical Group to be able to access the **Supplemental Attendance by Teacher** page, under **Teacher Emulation**, they will require **Read**, **Insert**, and **Update** permissions to the **Supplemental Attendance Data (ATD)** security area.

This allows them to mark attendance as if they are the teacher.

Supplemental Attendance

Assign **student** rights in portal groups.

- ✓ If students are only going to sign in by scanning a QR code, they only need **Update** to **ATD**
- ✓ If students are going to be able to view their supplemental attendance and sign themselves in to a session through the portal, they need **Read** and **Update** to **ATD**

Supplemental Attendance Programs

Supplemental Attendance Programs are District-owned and include basic data and a few options. The options will apply to all sessions for the program.

Examples of the types of programs that can be offered

- Tutoring
- Discipline
- ASES/Afterschool
- Credit Recovery
- Attendance Recovery

Options:

- ✓ If the program will **Allows Walk-Ins**
- ✓ If the program will allow **Student Self Sign-In**
- ✓ Attendance collection method
- ✓ Whether or not to restrict times

Supplemental Attendance Checklist

- _____ Define [Security](#) permissions for Supplemental Attendance for users, teachers and students.
- _____ Define [Supplemental Attendance Codes](#) for the various Supplemental Attendance dropdowns.
- _____ Create [Supplemental Attendance Programs](#). Examples: Tutoring, Detentions, ASES.
 - The Programs record includes basic information that will be applied to all sessions that use this program. Some examples are defining a maximum number of students per program, to Allow Walk-Ins, allow Student Self-Sign-In and defining how much modification teachers can make to the Supplemental Attendance Data records.
- _____ Create [Supplemental Attendance Sessions](#) in each school that will be running Supplemental Attendance.
Examples: Before School Tutoring, After School Detention.
 - The Sessions record includes various options appropriate for that session. Some examples are date and time ranges when the session is available, grade range of students that can be in the session, linking the session to a Master Schedule Section or to a Teacher, and linking the session to an Attendance period.
 - Each session also needs to have a Calendar created, Staff linked to the Session and students added to any non-walk-in sessions or non-linked sessions.
 - _____ Add [Calendars](#)
 - _____ Link [Staff](#) to sessions
 - _____ Add [Students](#) to sessions

AERIESCON
Spring 2024

Supplemental Attendance

Checklist (continued)

- _____ Select [Grade Reporting](#) options for the Supplemental Attendance Session if the session will be used to create Grade (GRD) records (secondary schools only)
- _____ Additional setup is required to configure the [Supplemental Attendance to Attendance](#) process.
 - _____ Populate the **Linked Attendance Period** field on the [Supplemental Attendance Sessions](#) page
 - _____ Flag the **Supp Att** field on a **Master Schedule** section when attendance for that section's period should be populated from Supplemental Attendance data instead of the regular Teacher Attendance page.
 - _____ Verify that the **Linked Attendance Period** is defined in the **Bell Schedule** on the **School Options** page or on the [Bell Schedule](#) page
 - _____ Configure the [Supplemental Attendance Configuration](#) page
- _____ Additional setup is required to configure the [Student Self Sign-In](#)
 - _____ Print [Supplemental Attendance Room Student-Self-Sign-In Sheet](#) if allowing students to self sign-in to a session.
- _____ Update Attendance [Portal Options](#) for any schools where teachers will be able to Back Post or Forward Post Supplemental Attendance. An example of this would be allowing teachers to back-post internship hours for work-study programs.

Add Students to a Session

There are several ways to add students to a session:

- ✓ Add by student numbers or Perm ID on the Students (ATA) tab
- ✓ Add by Master Schedule section number for a secondary school or Teacher # for an elementary school. This will add all students in a section or a class.
- ✓ Add with “Allow Walk-ins” option during Sign In or scanning
- ✓ Add with Aeries Analytics™

- ✓ It will include students with Supplemental Attendance data within the grade reporting date range and automatically calculate Grade Reporting **Days Enrolled**, **Days Present**, and **Days Absent** based on data in the Supplemental Attendance tables.
- ✓ If the Grade Reporting Option **Enable Hours on Grades/Transcript** is turned on, then Grade Reporting Hours (GRD.HR) will automatically be calculated based on data in the **Supplemental Attendance Data (ATD)** table.
- ✓ This will affect GRD records that are associated with Supplemental Attendance sessions via either the **Linked MST Section** field or the **Create in Grade Rptg** field.

Supplemental Attendance

Teacher Portal Supplemental Attendance

When the teachers log into the Teacher Portal, Supplemental Attendance will be listed on the navigation tree. Options for teachers to take Supplemental Attendance are set up in Portal Options.

- ✓ To enter attendance by student number or perm ID, set the toggle to Check in and then enter a student number or perm ID in the Student ID box and hit the Enter key or click on Go.
- ✓ If the option Allow Walk-ins is selected for the Program, a student number or ID number can be entered for a student not enrolled in the session.

The screenshot shows a user interface for taking supplemental attendance. It features a 'Check in' button with a green arrow icon, a green toggle switch, and a 'Check out' button with a red arrow icon. To the right of the toggle is a text input field labeled 'Student ID or Stu#' containing the number '99400001'. A 'Go' button is located to the right of the input field.

There is a Bug Item that you might want to subscribe to regarding using Student Number for Teachers in the Portal- you can get an Invalid Student Number message

Every year grantees that operated ASES, 21st CCLC, and ASSETs programs in the prior school year need to submit an enrollment and continuous quality improvement report to CDE. CDE provides two Excel templates to aid in the data submission. More information regarding the requirements for these reports, the CDE Excel templates, and additional information regarding the **After-School Education & Safety Program** can be found on CDE's website at <http://www.cde.ca.gov/ls/ba/as/>

- ✓ The **Supplemental Attendance Report (CCLC/ASES and ASSETs)** in Aeries will create an Excel file which contains enrollment and supplemental attendance totals by school and student for districts that run ASES, 21st CCLC, and ASSETs supplemental attendance programs.
- ✓ The **CCLC/ASES and ASSETs** reports are typically run in the prior year database. The Supplemental Attendance Report (CCLC/ASES and ASSETs) will create an Excel spreadsheet in a format compatible with CDE's reporting templates.

Supplemental Attendance

Supplemental Attendance Report (CCLC/ASES and ASSETs) Report

- ✓ Supplemental Attendance and Attendance History Summary are used to calculate the information in this report.
- ✓ The data in these tables needs to be accurate prior to running the report.
- ✓ It is recommended to run the Supplemental Attendance Audit Report (available at the school level) and clean up any errors prior to running the Supplemental Attendance Report (CCLC/ASES and ASSETs).
- ✓ The Supplemental Attendance Report (CCLC/ASES and ASSETs) uses the Attendance History Summary (AHS) data to determine the "Days Attended Regular School" in the reporting template
- ✓ The AHS table must be accurate in order to calculate the correct value for this reporting field.

Security Permissions:

- Non-admin users will need Read permissions to the Attendance History Summary (AHS), Supplemental Attendance Programs (ATP), Supplemental Attendance Sessions (ATS), Supplemental Attendance Student Assignments (ATA), and Supplemental Attendance Data (ATD) tables.
- Remember that the permission to these tables needs to be set up for the prior year database as well.

Supplemental Attendance

Supplemental Attendance Report (CCLC/ASES) Report

- ✓ Log into prior year database and navigate to the Supplemental Attendance Report (CCLC/ASES and ASSETs) screen from View All Reports. The report can be run while logged in at either the district level or at the school level. When run at the school level the report will only extract data for the students in that school.
- ✓ Select the **ASES or 21st CCLC** report option.
- ✓ Select all Attendance Programs (STU.SP) that would be counted as attendance days in the school.
 - Be sure to select the blank "Regular Program" as an attendance program that would be considered as having days present in the school.
- ✓ Select the Supplemental Attendance Sessions at each school that contain the attendance data for the 21st CCLC and ASES programs
 - Selections can be made for 5 separate programs. These correspond with the different programs that need to be reported to CDE
